Art Unit: 1714

1. The amendment of 1/3/06 has been entered. Claims 1-10 are pending.

2. Claims 1-10 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

A. the instant claims 1 and 6 recite "wherein a mass fraction of from 1% to 20% of the mass of the said polycarbonate polyols..." There is not support in the originally filed specification for "mass fraction" nor "% of the mass". The instant specification, pages 6-7 recites a percentage but does not specify what it is based on. Since a polymer is specified and polymer molecular weights are averages, the mass %, mole %, volume %, and any other possible percentages are different.
